

CARD TRICK TABLE-TOPPER

My table topper is 45 inches in all directions.

If you want yours smaller there are several options:

1. Use fewer strips - I used 7
2. Use narrower strips – mine are 1 ¾ inches wide
3. Use fewer and narrower strips.

You will need

Fabrics with graded colors from very light to very dark I used 7 from white to black

Pre-work includes:

Cut 4 strips (the width of the fabric) of each fabric and sew them into 4 strip sets with colors arranged from lightest to darkest. See above for changes if you want a smaller table topper.

Press 2 strips toward the dark side and 2 strips sets to the light side.

Equipment you will need

Sewing machine

Neutral thread

Cutting board, ruler (12" square ruler will be best) and rotary cutter. Everyone will start with cutting, so you will need your own unless you want to wait A LOT.
